*A Story Buried Beneath The Surface:*  
**The Survival of an Incurable Optimist**  
 From Fascist Persecution to the Battlefields of Palestine  
 by Leslie Paldon/Marie Walter

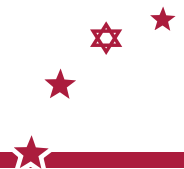

Persecutions, forced labour, deportation, László Popper, offspring of a respected family, friends, warm-hearted strangers and an element of luck he avoided numerous occasions of premature ending. Not only has he lived through the Holocaust, but he survived, as did the future of a Jewish National Home in Palestine. Under his chosen name of Leslie Paldon, the Hebrew word for steel, he built his life with relentless optimism, in spite of all the hardships.

This biography written by Leslie Paldon and co-authored by Marie Walter relates to an uncommon life that has been buried deep for a very long time. The questions raised brought the past back to the surface. It was time for Leslie to break his silence.
